Have you seen feral cats in your local area?

FeralCatScan is a new website for landholders and the community to record feral cats.

- Record sightings, feral cat evidence, impacts (such as dead native wildlife) and control activities.

- Develop a detailed local map of the feral cat problem.

- Keep local authorities informed about current problems.

- Create a local community action group document feral cat problems, and plan local control activities.

- Visit – www.feralcatscan.org.au or download the App

FeralCatScan is hosted by the Centre for Invasive Species Solutions and supports regional biosecurity and NRM groups, local councils, landcare, landholders and community organisations.

How to record feral cat activity

Option 1. Go to www.feralcatscan.org.au

 Register your details and Login, or record data using your email address.

  Map where you have seen feral cats, evidence, cat predation and control actions.

  Submit your record, and view it on the Map. View other records in your local area.

Option 2. Download the Mobile App (Apple/Android).
